DEFENSE MADE BY U.S. STEEL

Stockholders Get Report Answering "False and Unfair Criticism."

By The Associated Press

HOBOKEN, N. J., May 3—The management of United States Steel Corp. today presented a defense against what it termed false and unfair criticism of its policies.

A detailed report to the 47th annual meeting of stockholders explained the corporation's viewpoint on wages, prices, production dividends and expansion of production facilities. It was prepared by Irving S. Olds, chairman of the board, and read to the meeting by Enders M. Voorhees, chairman of the finance committee.

Recalling that U. S. Steel last month refused to grant "a substantial wage increase" requested by the CIO United Steelworkers of America and at the same time announced a $25,000,000 price cut, Olds reported:

"Wages, salaries and other employment costs of U. S. Steel continued to advance during 1947," with nearly 43 per cent of sales revenue spent for employment and nearly 40 per cent going for purchase of products and services from others, at the same time, earnings were 6 per cent of sales, "the lowest for any peacetime year in the history of U. S. Steel during which steel operations were at a level approaching full capacity."

"And yet a feeling seems to persist in some quarters that stockholders receive the lion's share of a corporation's sales revenue," he said. "How far from the truth is such an impression."

Dividends paid to stockholders, said Olds, "represented about one-thirteenth of its total payroll for last year. This comparison with the respective sums received by employes and stockholders in 1947 is interesting and important, because many uninformed persons in this country appear to believe that a reverse situation is true."

In reviewing the corporations's expansion program "to satisfy customers' needs for steel in times of peace or of war,' Olds said: the "construction and improvement program authorized by U.S. Steel since V-J day involves a total expenditure by it of around $800,000,000. Expenditures for these purposes in 1947 were approximately $206,000,000. In the first quarter of 1948, the cost of additions to and betterment of the properties of the corporation approximated $52,000,000. About $400,000,000 is the estimated amount, as of March 31, 1948, required to complete these authorized improvements."

PICKET LINES LARGER IN PACKERS' STRIKE

By The United Press

CHICAGO, May 3 — Striking CIO packinghouse workers reinforced their picket lines at all gates of the big Chicago stockyards today in defiance of Wilson and company's warning that it planned to fire Chicago strikers who did not report for work today.

Many members of other CIO unions in Chicago appeared to march on the picket lines in answer to an appeal by the packinghouse workers.

About 1,000 pickets paraded at the stockyards gates at 7 a. m. the time the day shift starts. About 200 concentrated in front of the Wilson plant.

The pickets fell back sullenly to let several refrigerator trucks through the gates. Some cars bearing non-striking production workers were also inched past the pickets. The pickets jeered.

Many of the "guest" pickets were from the CIO United Electrical Workers and the CIO United Farm Equipment Workers. They carried signs pledging continued support to the strikers.

20 Die As Tornadoes Rip Through Midwest

By The United Press

Tornadoes and severe electrical storms left 20 persons dead today after smashing through the middle west, West Virginia and Kentucky.

Twisters claimed 10 lives in Oklahoma, Kansas and Missouri during the week. Four persons were killed by a tornado which ripped through central West Virginia and five died in a twister which struck near Alpha, Ky., last night. A man was electrocuted as the result of a storm in Illinois.

The storms caused hundreds of thousands of dollars in property damage. In Fairmont, W. Va., more than 20 houses were torn apart and some 500 persons left homeless.

An eyewitness said he saw a group of houses on a mountainside in West Virginia blown clear across a valley where they were smashed against another mountain.

Police Chief Charley Back of Monticello, Ky., said casualties in his city included five dead and at least 50 injured. There were four dead at Clarksburg, W. Va.

The eastward-moving series of storms started with a twister which tore through a 20-mile area in northeastern Oklahoma and jumped into southeastern Kansas, killing six.

High winds on the tornado area fringe damaged communities in Missouri and Illinois and increased the death toll. Three men were drowned when high waves capsized their boat on the Lake of the Ozarks in southern Missouri.

Cyclonic gales blew across Ohio last night, uprooting trees, ripping off roots and disrupting communications. But no deaths were reported. The winds were followed by heavy rainstorms and electrical disturbances.

Speeding eastward, the storm center next struck communities in the Clarksburg, W. Va., area, killing three persons and leaving many injured. The town of West Milford, southeast of Clarksburg, was hardest hit.

West Virginia state police said debris-strewn highways and driving rains hampered relief work. Telephone service between Clarksburg and points south was cut off.

A woman and a man were killed last night when a twister struck near Alpha, Ky. The woman, Mrs. Bill Denny, was killed when the storm blew her house 50 feet off its foundations. Her husband and 15-year-old son were injured seriously. A man named Gregory was killed when the wind destroyed his home and blew him 150 feet through the air.

A church in Alpha was demolished with about 75 persons inside. Only the organ was left standing, but no deaths resulted. Deaths in isolated regions were rumored but not confirmed.

Early this morning the storm center was moving eastward across Pennsylvania.

Hope for Wage Hint In Murray Address

By The United Press

Industry and labor looked to an address tonight by CIO President Philip Murray for a possible clue on whether CIO unions favor a big push for a third round of wage increases.

Murray will deliver a nationwide radio broadcast at 8:30 (Marion time) on issues in the steel wage dispute. Observers believed he might reveal what CIO unions will do in their efforts for another round of wage increases, the third since the war.

WINDS LASH CENTRAL OHIO

Southern Area Also Caught by Blast; Farming Areas Hardest Hit.

By The Associated Press

COLUMBUS, O., May 3—High winds lashed sections of southern and central Ohio yesterday, causing damage and minor injuries to at least four persons.

Most damage was centered in farming areas around Greenville in Darke county and Urbana in Champaign county.

Heavy rains and hail accompanied the winds—which were registered in gusts up to 70 miles an hour at the peak of the storm.

Scores of barns were unroofed or destroyed and dozens of farm homes were damaged. Hundreds of rural residents were without electricity or telephone service. Traffic was disrupted as trees fell across roads.

Authorities at Greenville estimated loss in that area at $300,000. Urbana territory, however, was hit harder.

Five planes were buffeted at Ohio university airport in Athens and one of the historic, 100-year-old McGuffey elms on the campus was blown down.

Elsewhere in Athens county the wind and hail storm did considerable damage. Hail as big as two and a half inches in diameter broke windows and knocked holes in roofs, while the wind pushed over some outbuildings and unroofed a number of barns.

Elsewhere the injured included: Ernest Wilkins, 15, a broken leg suffered when the barn on the farm of his father Walter Wilkins near Urbana was blown over.

Richard Shipley, seven stitches in his head after his father's barn was destroyed. W. A. Shipley's farm is five miles north of Urbana.

James Moorman, 25, of Springfield, severe head and leg cuts suffered when the Cletus Detrick barn was blown down near West Liberty.

Clayton Detrick, 63, father of Cletus, was bruised and cut when pinned in the wreckage.

Ohio Telephone Service company at Greenville said its lines were heavily damaged. Service was cut off to Ansonia, Versailles, Rossburg and New Madison. The Rural Electric administration at Greenville also reported heavy loss.

Fugitive Captured, Held as No. 1 Person

By The Associated Press

HUNTINGTON, W. Va., May 3 Homer Jack Dean—sought for questioning in the slaying of a Columbus, O., real estate dealer—was back in Cabell county jail today.

The 37-year-old fugitive was captured last night by Ashland, Ky., and Lawrence county, O., police while changing a flat tire on U.S. route 52 between South Point and Ironton, O.

Dean, described as the "number one" person sought for information in the slaying of real estate dealer Elmo C. Rice, fled from the Huntington state hospital last Dec. 10.

He had been sent there at the request of his family two days before. Dean also is under indictment in Cabell, Kanawha and Lincoln counties in West Virginia on robbery and forgery charges.

GREEK ASSASSIN ADMITS RED TIES

By The United Press

ATHENS, May 3 — Greek authorities said today the assassin of Justice Minister Christos Ladas confessed that he acted on Communist party orders.

Ladas died Saturday night from wounds suffered when a May day assassin threw a grenade into his car. Funeral services were scheduled today.

The assassin, identified as Eustratios Moutsoyiannis, 22, refused to reveal who aided him, authorities said.

Unofficially it was reported that police are seeking three alleged accomplices, who were said to have handed him grenades at a rendezvous Friday night.

He used three grenades, throwing the first into the car which Ladas was entering after leaving Easter prayers of the Orthodox church Saturday morning.

French was arrested last week by state fire marshals following a year long investigation of the fire that destroyed a three-room house on the Marion-Cardington pike in January, 1947. He entered a plea of not guilty to the charged when arraigned in court here Friday.

INSIST SYRIANS IN HOLY LAND

Jews Report Invasion Into Northern Palestine; British Rush Back Soldiers.

By The Associated Press

JERUSALEM, May 3—Jews insisted today, in the face of denials, that Syrian and Lebanese armies have invaded northern Palestine.

The British rushed soldiers back into the country to deal with what they called a "seriously deteriorated" situation, less than two weeks before the May 15 date they have set to end their rule.

The truce, enforced by the highland light infantry, apparently was being respected. Its spirit was evident all over Jerusalem. Not a single shot was heard today from within the city, either in the new or in the old quarters. Sporadic fighting was audible from some other suburbs.

They guarded a new 48-hour truce between Jews and Arabs in the southerly Katamon quarter of Jerusalem while they negotiated for a truce to cover the whole city and its Christian, Jewish and Moslem shrines.

The first British reinforcements were an estimated 1,000 soldiers in full battle dress who reached Haifa yesterday from Cyprus aboard the troopship Emire Test.

Before that, competent sources had estimated British strength in Palestine at 25,000 troops, including skeleton armored and gun forces. The British army has been shipping out under a pledge to be gone by Aug. 1.

Official sources in Amman, Trans-Jordan, said Thursday Trans-Jordan, Syria, Lebanon, Egypt and Iraq would send at least 30,000 regulars to "rescue Palestine before May 15."

The strength of the Jewish militia Haganah is estimated unofficially at 53,000 and that of the Jewish underground Irgun Zvai Leumi and Stern group together at 2,500 to 7,000.

Haganah, which had announced an Arab invasion Saturday of Palestine's northernmost thumb, said in Tel Aviv last night attacks of five Jewish settlements there had been beaten off but Syrian troops still were massing on the border.

Star To Give Phone Reports of Primary

A special telephone news service giving reports of the primary vote in Ohio, the Eighth congressional district and Marion county will be provided by The Star Tuesday night.

To give this service The Star's telephones will be open to calls throughout the night with a corps of workers on duty to answer inquiries. The phone number is 2314. Requests for information on returns will be given promptly and everybody is invited to make use of the service at any time and as often as desired.

The vote in Marion county will be tabulated in The Star news room by staff members as rapidly as precinct reports are received from other Star employes on duty at the board of elections office. Running totals will be compiled on all contests so that the trend can be followed from the time the first precinct reports until the final count is determined.

Reports on the state vote, including the contests for state offices and the race between Taft and Stassen for presidential delegates, will be received over The Associated Press wire.

It is not likely that any considerable number of returns will be received before 9 p. m. However, should earlier news happen to come in it will be given to all who call.

Remember the phone number. It is 2314.

Ohio Result Seen As Vital Factor in Campaign.

By The Associated Press

CLEVELAND, May 3—Senator Robert A. Taft and Harold E. Stassen wind up their Ohio delegate battle today amid signs that the outcome may sway early GOP presidential balloting at Philadelphia.

Both candidates planned last hour appeals over state-wide radio hookups tonight in their contest over 23 of Ohio's 53 presidential nominating votes.

Both camps expressed confidence in the results.

Politicians were watching the outcome for its possible effect on foot-loose delegations from such states as Illinois and Pennsylvania, where the bloom of favorite sons might fade quickly.

From the Taft camp came reports a majority of the 56-vote Illinois group is ready to come their way speedily at the national convention.

In fact, some of the Taft followers are predicting the Ohioan can have 31 on the first ballot, despite previous plans to back Gov. Dwight Green as a favorite son. Green has been named as the national convention keynoter.

But these Taft supporters admit privately that unless the senator can stand Stassen off with a half dozen or fewer delegates from his own vote orchard, the Illinois plums may fall on the other side of the wall.

There is some talk that Gen. Douglas MacArthur's friends may be around to pick them up.

Taft's hope for support in the 73-vote Pennsylvania delegation—pledged to Senator Edward Martin as a favorite son—was said to hinge in part on his showing here.

Gov. Thomas E. Dewey of New York, now campaigning to keep Oregon's 12 convention votes out of Stassen's hands, has his eye on the Pennsylvania delegation, too.

Stassen's backers concede that the Illinois-Pennsylvania delegate lineup may be the battering ram of a stop-Stassen movement.

With that in mind, they are straining every point to pile a victory in Ohio on top of previous popular vote successes in Nebraska and Pennsylvania and a delegate-winning spree in Wisconsin.

Only Two Major State Primary Contests

By The Associated Press

COLUMBUS, O., May 3—Tomorrow's primary—dominated by the Taft-Stassen delegate contest—includes a number of other intraparty political tests.

Voters pick party candidates for governor, lieutenant governor, secretary of state, treasurer, auditor, attorney general, congress, three supreme court judgeships, the legislature and various county offices.

Two things combined to subordinate this phase of the primary.

First was the bare-knuckle campaign between Sen. Robert A. Taft and Harold E. Stassen. The former Minnesota governor is challenging the GOP state organization's favorite son for 23 of Ohio's 53 convention delegates.

Not Many Major Contests

Second, there were few important contests on either the Republican or Democratic state tickets.

Gov. Thomas J. Herbert Virtually was assured renomination to a second two-year term. His two rivals for the GOP nomination are Albert E. Payne, Springfield industrialist waging an anti-vice campaign in his third try for governor, and William L. White, Newark, newcomer to Ohio politics, who calls for increased old age benefits.

Ex-Gov. Frank J. Lausche and Ray T. Miller, former Cleveland mayor, have waged a bitter campaign for the Democratic gubernatorial nomination. Joseph Torok, Jr., of Youngstown and Robert S. Cox of Millersburg also are entered.

The secretary of state's office predicted 650,000 Republicans and 550,000 Democrats would vote tomorrow.

There is no presidential delegate fight on the Democratic side. Ohio Democrats will send their 58 delegates to Philadelphia to vote for President Truman.

U. S. Treasurer W. A. Julian of Cincinnati is the "favorite son" nominee, because Mr. Truman was not a candidate when the Democratic delegates were chosen. This was regarded as a mere formality.

Lausche, Miller Hard At It

Miller and Lausche continued their slugging match last night.

Miller reported more than $11,000 was distributed to party workers in Cleveland to aid "the organization" in the primary.

Last Minute Plans Made for Vote in Marion Co.

Presiding judges and election workers today were concluding last minute preparations for tomorrow's vote in the 55 precincts throughout Marion county in the primary election.

The board of elections reported no changes in the city's 30 precinct polling places. Polls will open at 6:30 a. m. and close at 6:30 p. m. with election workers reporting a half hour earlier.

Weather prediction for tomorrow is fair and mild which could be a factor in holding down the county vote. With good weather many farmers will remain in the fields until sundown with preparations for crop planting taking preference over voting.

Few Contests

With one of the few contests looming that for the two vacancies coming up in the county commissioner's office, candidates welcome a heavy rural vote.

With county contests few, the presidential primary vote in Marion county this year is not expected to be an unusually heavy one, observers generally concede. Election betting on occasion heavy at the primary, is negligible this year, it was reported today.

Estimate on Vote

Election board officials anticipate a total county vote of approximately 10,000. The primary vote for the county in 1944 was only 8,224 in an election also marked by a lack of county contests. This year, however, there is a more spirited contest for GOP national convention delegates as well as a strong local interest in the GOP nomination for member of congress in the Eighth district.

Otherwise, the election offers but three county offices to be contested by Republicans and two by Democrats. Both parties have contests up for nomination to the offices of commissioner and sheriff while the Republicans face a choice of two candidates for county prosecutor.

Marion County Man Is State Candidate

Only Marion county candidate for nomination to state office this year is Harry V. Armstrong of Laltue, again seeking the nomination for state treasurer on the Democratic ticket. He received the nomination at the 1944 primary although defeated in November of that year. He was a candidate again in 1946.

AUTO CRASHES INTO HOME IN VILLAGE

Marion Man's Car Found in New Bloomington.

Blount Prater of 160 North State street perhaps has found a new way of entering a house. His car was found in the living room of the John Hickman home near New Bloomington at 12:20 a. m. Sunday where it stopped after going out of control on highway 95, eight and a half miles west of Marion.

The Hickmans, abed at the time, were awakened by the crash, which did $1,000 damage to the house, but were unable to find the driver after being aroused. Prater, who was found near by and who is listed as the owner, claims not to have been driving the vehicle. The case is being investigated by the state highway patrol.

Two Other Accidents

Two other automobile accidents over the weekend reported by the patrol included one in which Lynn Studebaker of Detroit, going north on highway 23 at 2:45 p. m. Sunday about nine miles northwest of Marion, struck a utility pole and knocked over a stop sign at the intersection of County road 128 when another auto made a left turn in front of his car. The Studebaker car was considerably damaged on the left side when it was driven off the road to avoid the collision. No injuries resulted.

An accident at the intersection of route 4 and Tawa road, 13 miles south of Marion at 11:15 a. m. yesterday, resulted in the arrest of Fred Landon of Radnor and a fine of $15 and costs imposed by Mayor Gwynn of Richwood for failure to give the right of way, when the Landon car going east on the county road struck the rear of a vehicle driven by Harry Carter of Troy who was going north on route 4.

Find Electric Shock Cause of Ashley Death

Through a post mortem examination held on the body of Frank Snyder, 21, of Delaware, Thursday in Columbus, it was determined that Snyder was electrocuted causing his fall from a tree near the entrance of the Ashley fairgrounds Thursday noon. The examination was made by Dr. Horace B. Davidson, Columbus pathologist, at Mt. Carmel hospital and an official report of the findings were received from Dr. Davidson, by Dr. Wray Davies, Delaware county coroner, and Delaware County Sheriff Earl Fravel who investigated the accident.

It is believed that Snyder, a tree trimmer, accidentally touched a high tension wire while trimming trees along lines of the Ohio Public Service Co. at the fairgrounds.

Snyder fell approximately eight feet onto a fence post.

Funeral services were conducted Sunday in the Robinson-Brackney funeral home in Delaware and burial was made in Oak Grove cemetery. Mr. Snyder was a former resident of Ashley.

NEW ORK, May 3—New tenants today occupied a four-story brick house at 60 Morningside drive—Gen. and Mrs. Dwight D. Eisenhower.

The neighbors didn't waste any time about getting acquainted.

When the general and Mrs. Eisenhower strode up to the front door of their new "civilian" home yesterday there were 200 folks from next door and across the street to say "Hello."

"Welcome to Morningside Heights," shouted one woman.

"We're your new neighbors," credit another.

Grinning broadly, General Ike waved his cap as the crowd closed in. He spotted a soldier in the throng, and called out:

"I see you're from the 71st. My son was in that outfit." The two shook hands.

Although Eisenhower still wore his uniform, he said his goodbyes to the Army yesterday at Fort Myer, Va., before driving here, where he is to take over as president of Columbia university June 7.

Howard Hughes Aims At RKO Movie Control

By The Associated Press

HOLLYWOOD, May 3—Howard Hughes, who does things in the grand manner, has readied another eight or nine million dollars to sink into a new venture.

The shy, reserved 43-year-old bachelor who developed an oil tool business into a vast fortune, branched into a movie producer, got out of it and into the airplane business, has taken an option to purchase control of RKO studios.

Not content with bossing one of the world's biggest commercial airlines and building and flying experimental planes, Hughes last night announced that he had reached a tentative agreement with Floyd Odlum for the purchase of the latter's 928,000 shares of RKO stock.

Hughes said recently he was convinced an independent produced could not compete on favorable footing with the majors. His deal with Odlum has been cooking for some time.

Your Good Health

By DR. HERMAN N. BUNDESEN

Symptoms Signaling Trouble

Diarrhea, either in intermittent attacks or continued over a long period of time, and accompanied by soreness of the abdomen, gas pains and cramps usually means one of two things, inflammation of the bowel or an irritable colon.

The latter is far more common than the former and, while its treatment requires less in the way of medicines, it demands a great deal more in the way of tact, reassurance, and common sense, for these people are usually greatly worried about themselves. They are afraid they may have cancer or some actual bowel inflammation. It is part of the physician's job to impress his patients with the fact that there is no real organic disease present, and that they are not suffering from colitis or bowel inflammation.

Of course, this can only be done after the physician has assured himself that actual inflammation or disease is not present. He will rule these out only after careful examination, including X-rays of the bowel and the use of the proctoscope, an instrument which allows him to look directly at the tissues of the lower part of the intestine.

Undoubtedly, the most important underlying factor in this condition is worry and fear of one type or another. It is the emotional strain, not physical disorder, which brings on the distubance of the bowel action.

In some cases, it is thought that perhaps sensitivity to a food, or allergy, may be a contributing cause.

It has been noted in certain cases that other symptoms of the irritable bowel appear following such conditions as amebic dysentery, a dysentery due to germs, and so-called intestinal flu. Following an attack of one of these conditions, the patient may have persistent spells of diarrhea, together with some discomfort in the abdomen. In these cases, no particular treatment is required, and the symptoms gradually disappear.

One of the most important things in the treatment of the irritable bowel is reassurance, and the elimination of worry as far as possible.

As to dietary treatment, bulky foods and highly seasoned foods should not be eaten. It has been suggested, also, that it is important to avoid the taking of excessive amounts of fluids. Mild sedatives or quieting drugs, such as phenobarbital, will be prescribed by the physician when he thinks it is necessary. Certain drugs, such as belladonna, which seems to relax the intestine, may be of slight benefit in some cases.

Washing out the lower bowel is of no value and, in fact, may only tend to make the disturbance worse. The use of laxatives and enemas may also lead to further difficulty.

Questions and Answers

A Reader: When in bed, if I try to turn my left side I get dizzy. What would you suggest?

Answer: There are many causes of dizziness, among which are constipation, high blood pressure, heart, and kidney trouble. Constipation is one of the most frequent causes of dizziness.

It would be advisable for you to have a thorough physical examination by a physician to determine whether or not any of these conditions are present. The blood pressure should be taken and the urine examined. The proper treatment can then be suggested.

Mark St. Pupils Give Spring Music Program

"Musical Memories of America" was the theme of the spring musical program presented by the pupils of the fourth, fifth and sixth grades of Mark Street school at a meeting of the school P.-T. A. unit Tuesday night. Lester L. Dickey, superintendent of Marion city schools, was guest speaker.

In the musical program, tableaus illustrating each era of music, with a chorus as background, traced the developments of musical heritage from 1776 to the Gay 90's. A short history of each period was given by a reader.

The tableaus included the following: "Spirit of '76" by the fourth grade; portrayal of "Early Dances;" "Spirituals" by the fifth and sixth grades; "Minstrel Era" by the fifth and sixth grades; "Stephen Foster" with a southern scene by the fourth grade; "Civil War Songs" by the fifth and sixth grades; "Songs of Cowboys" with a campfire scene by the fourth grade; and "The Gay 90's" with a park scene by the fifth and sixth grades.

The program was directed by Miss Mary Smith and Mrs. Lois Beicher.

GHT RATES "UP," ET STEEL CUTS

...e Associated Press

...AND, May 3—Freight ...es coming up this ...offset somewhat recent ...n steel prices, the ...eel said today. ...me time, Steel ex- ...fidence that the larger ... steel firms will fol- low promptly U. S. Steel's lead in reducing prices, even though the pattern in amount and types of products may vary.

On freight rates, Steel said: "To some extent lower base prices on steel effected over the next week or so will be offset by freight rate increases scheduled to become effective May 6. While the freight boost will not immediately affect base prices they will result in a prompt increase in delivered mill prices, as well as warehouse quotations.

"The new rates represent an increase in official classification territory of 30 per cent over rates a year ago. They will replace the 20 per cent interim increase in effect since Jan. 5, which, in turn, cancelled out the 10 per cent increase of last October."

Citing leaps in production figures throughout the industry, Steel said that by the end of this week operations "will approximate the pre-coal strike rate."

PLAN HARNESS OF SUN ENERGY

U. S. Experts Hope Through Distillation of Salt Water To Make Fresh.

By VERN HAUGLAND
Associated Press Writer

WASHINGTON, May 3—The Virgin islands are about to witness an ambitious attempt to harness the energy of the sun.

St. John, smallest and driest of the three main islands, soon may implement its fresh water supply by siphoning salt water out of the ocean and distilling it with the sun's heat. Up to now, rain has been the only practical source of fresh water there.

Garland Rounds, Federal Works agency engineer, says 125 solar distilling units will be installed on the island this summer. They will be of a new type with a production quota of 1,000 gallons of fresh water a day.

Units Analyzed

The units, looking like skylights, will be eight feet long and four feet wide. They will be perched on elevations so that the fresh water will flow by gravity to the consumer. They were developed at Massachusetts Institute of Technology by Dr. Maria Telks and consist of:

1. A level concrete base covered with inch-thick insulating board. The upper surface is waterproofed with a black substance to absorb the sun's radiations.
2. A basin half an inch to an inch deep for salt water, atop the black board surface.
3. A plastic cover to collect vapor rising from the sun-heated pool.
4. Troughs to collect the condensed moisture and send it through pipes to storage.

Dr. Telkes estimates the new units will have an efficiency of almost 60 per cent. Rounds said the efficiency of earlier types was as low as 25 or 30 per cent.

Dr. Telkes estimates the new type distillation units lose 10 per cent of the sun's energy at the transparent surface, four per cent due to imperfect blackening of the pool bottom (she has not yet developed a perfectly black surface material), 12 per cent to re-radiation from the top of the unit, 10 per cent through the insulated bottom surface and five per cent through air circulation.

Experiments at Cambridge, Mass., indicated that a distiller with a tray area of six square feet could produce more than a gallon of water on a clear summer day or two-thirds quart per square foot.

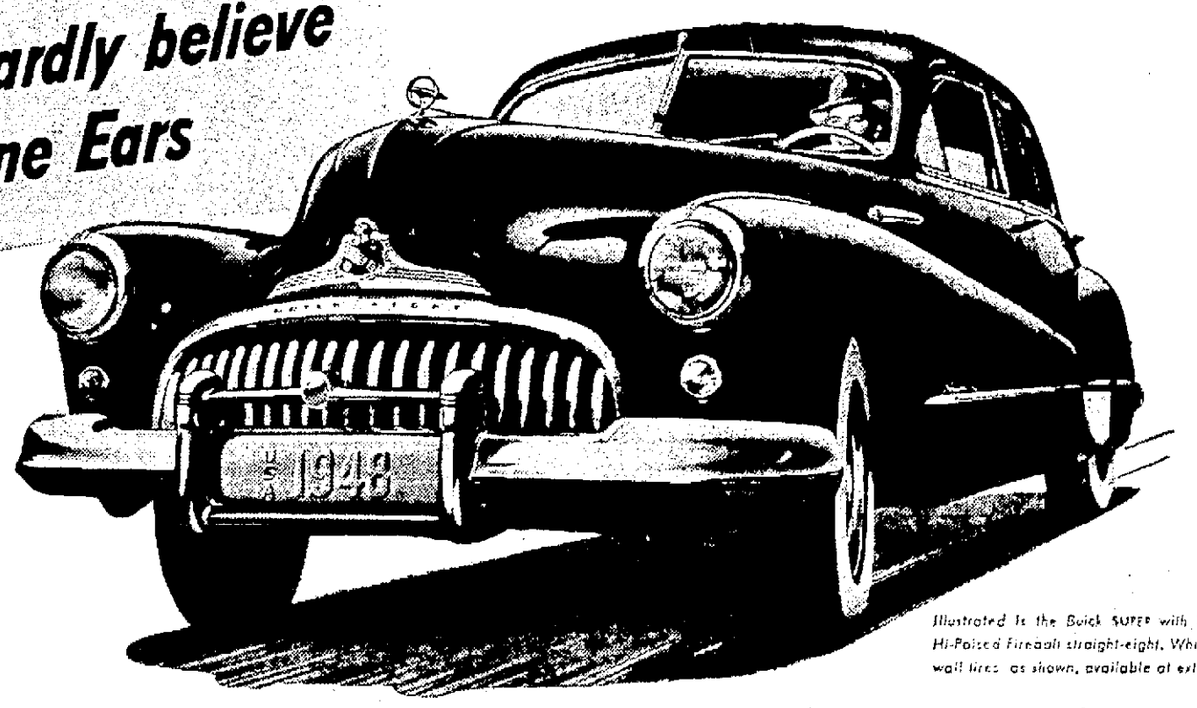
We can hardly believe our Engine Ears



Illustrated is the Buick SUPER with 115 hp. Hi-Poised Fireball straight-eight. White sidewall tires as shown, available at extra cost.

WE don't mind admitting we've been pretty proud of our big Fireball straight-eight engine.

A lot of brain-sweat went into making it lively — and as for smoothness, we don't know of any power plant that gets the loving care lavished on this Micropoised* beauty.

So we thought we knew the song and the feel of an engine as smooth as automobile engines could be.

Then — well, then our engineers came up with Hi-Poised mountings and really opened our eyes — and ears.

At idling speed, you have to shush all conversation and cock an alert ear to make sure the engine's running.

Rolling along the road, the whisper of your tires rises higher than this smoothie's contented murmur.

More than that, you find that the whole ride seems smoother, quieter, more restful and easy in these tidy '48 Buicks.

You soon discover that it's unnecessary to ease yourself over rough spots where ordinarily you would engage in a little extra clutch work, while many a little shudder that used to pass for clutch chatter has been wiped away.

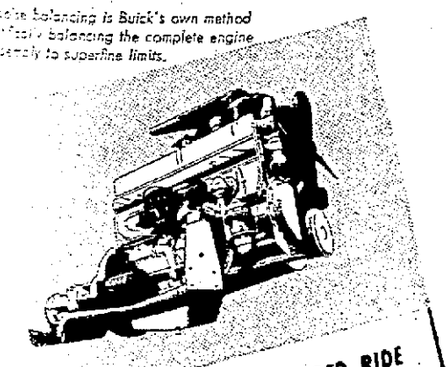
In short, as one owner has put it, "Now it seems that Fireball power is wearing velvet gloves!"

Add all this to other things — to steady-going size and weight, to gentle coil springing, to big, cushiony low-pressure tires on the widest rims in the industry—and you've got something too good to miss.

So we suggest — get your hands on a '48 Buick, any '48 Buick, and see just what we mean.

You'll meet a ride story so sweetly convincing, you'll want to get an order in — but quick! And you can do that, you know, with or without a car to trade.

*Precise balancing is Buick's own method of factory balancing the complete engine assembly to superfine limits.



SECRET OF THE VIBRA-SHIELDED RIDE

Two fat cushions of special composition, and placed with scientific accuracy, suspend the Buick engine at the points where vibration is most readily controlled. A third new mounting at the rear completes a precise system of controlling engine vibration frequencies. The result is to shield the entire car against vibration build-up and make a noticeably smoother ride.

Blaming the School System

BROOKLYN policemen are guarding a school teacher who recently was shot at by six pupils whose leader was afraid he couldn't pass a test in mathematics. The ages of the juvenile terrorists ranged from 12 to 16. They used rifles stolen from a Coney Island shooting gallery and fired 30 rounds of ammunition into the teacher's home from a stolen automobile.

This is going to be a hard incident to blame on the public school system, scapegoat for everything that's wrong—from bad grammar to bad manners. In a case like this it looks as if the blame might have to be shifted somewhere else. Twelve parents must have been at fault, also one of some thousands of careless motorists who leave keys in automobile ignition locks. Perhaps the borough of Brooklyn isn't everything it should be, from the standpoint of its rising generation. It's possible the gangster legend as passed along by the radio and the moving pictures may have had something to do with it.

The matter is mentioned to clear the decks. Readers, having considered the possibility that there might be other things to blame for what's wrong in this country, can go back to the school system, holding it responsible for everything from juvenile delinquency to adult stupidity. Otherwise, they might have to blame themselves, a silly thing to do when there's a scapegoat handy.

100 Years o the A.P.

THIS month marks the centenary of The Associated Press, organized when representatives of six New York newspapers voted to form a nonprofit cooperative agency for gathering and distributing news. That is what The Associated Press has remained through the 100 years of its growth—an association without capital stock, profits or dividends.

At the centennial dinner last month, the directors issued a statement which said, "In this land of fought-for-freedom, The Associated Press knows but one master—truth in news." For idealistic and practical reasons, The Associated Press will always be synonymous with accuracy and truth. Those qualities are the foundation stones upon which it was built and will endure.

A Bull Market in Surplus

BIDDERS attending war assets administration auctions report they are being driven out of the market by foreign governments, notably Norway, Finland and Austria, armed with plenty of American credit. The foreign buyers bid high for heavy equipment—locomotives, cable wire and machinery — leaving domestic buyers such items as safety pins and hair tonic.

Domestic buyers argue they are being pushed out of the market by money they as taxpayers helped to raise. However, the WAA is sure of its position. A spokesman said, "we are trying to get maximum prices—the most a taxpayer can get back on his property. Obviously these foreign governments are part of the world market."

The domestic buyers' irritation is understandable, but they are in a speculative business in which items are stockpiled against demand from abroad, possible war or domestic shortages caused by strikes or other disruptions. If WAA goods is to be sold abroad, more profit will accrue to the government if foreign buyers bid directly for it rather than do business through middle-men.

Where the Grass Is Greener

OHIOANS are reminded on days in Maytime to count their blessings one by one, beginning with the benediction of grass.

Never in memory has there been spread a richer carpet of green than has been spread this spring. Never has man borrowed scraps of it from the meadows to fit more neatly into the nooks and corners of his city confines. Ohio this spring is a masterpiece of exterior decorating. Inspection is invited.

To be sure, some Ohioans are oppressed with thoughts of lawnmowers and can't see the grass for the perspiration, but they are being shortsighted.

When August sunshine fades the state's resplendent new carpet, they will share the general disappointment. And when visitors from underprivileged sections where the grass is wan and sickly even in Maytime marvel at Ohio's good fortune, the native skeptics will encourage them.

Sometimes the visitors accuse Ohioans of not appreciating their blessings, including grass. That is a slander. The beauty of Ohio in springtime accounts for the fact that all Ohioans are happy. The luxuriance of the Ohio sod, which can be felt by even a shod foot, makes Ohioans sure-footed. There is no place on earth better to be in springtime than beautiful Ohio, where the grass is greener. Ask any Ohioan.

Scanning the Record

By George E. Sokolsky

The Cubmarine and Its Threat to the U.S.

NO COUNTRY, other than the United States, today possesses what used to be a navy. But there is still potency in attack on the seas; in fact, the current submarine is more dangerous because of its wider range, its ability to remain under water for longer periods and its greater firing capacity. In a word, the submarine can still prevent us from importing what we need, from supplying our forces abroad and from moving men overseas.

SOKOLSKY

Prior to the 1939-45 war, Soviet Russia had no navy of any account. As for surface ships, that is still her condition. Her coastline, both in Europe and Asia, has been increased; in Asia, from Vladivostok to Port Arthur; in Europe, from Murmansk to Hamburg.

From the Germans, Soviet Russia, with the consent of the United States, inherited a submarine fleet which she added to her own fleet. The Germans, toward the end of the war, were manufacturing a revolutionary, true submarine called type 21. This vessel is able to "breathe" under water through a "schnorkel." The greatest advantage of this device is that it provides wider range and greater invisibility, pulling the submarine out of the radar detection field and thereby making defense against it more difficult.

These submarines were being built in the Harz mountains, in parts, and were floated down river to Danzig, Hamburg and Bremen where they were assembled in huge shipyards. The Russians got Danzig and Hamburg by conquest and the shipyards at Bremen by reparations. Thus, they came into possession of more power than they had been able to produce in 300 years.

Valuable Equipment

And they came into possession of a large number of German fast, true submarines, either completed or in parts. These submarines have a different type hull to provide faster underwater speed. They have more and better batteries. They have the "schnorkel" which "breathes" under water. This is the type 21.

I believe that Soviet Russia, the United States and Great Britain agreed to take 10 each of modern U-boats and to destroy any others that fell into their hands. But the Russians did not do that. Instead, they created a large submarine fleet, which is estimated to consist of:

150—200 seagoing submarines;

75—100 coastal submarines.

Of type 21, they have surely 25, and possibly 100, because there were parts for between 30 and 100, and they have presumably assembled them by now in their shipyards where they have German scientists and skilled laborers working for them.

That is their fleet. How much this can be expanded with their present facilities is not known and has still to be seen. Russia has never been a manufacturing country, but the combination of raw materials, German science and management and Russian slave labor might or might not be a satisfactory arrangement.

Our Underwater Fleets

The United States actually has about 80 submarines in operation and about an equal number in the mothball fleet. We have four of type 21 and six of other new German types. We have and know everything that the Germans had and are continuing to improve upon them. I am told that we have a radar picket type, a guided missile type and a transport type under construction. Rumor has it that guided missiles have actually been fired from American submarines and that while their accuracy is still unsatisfactory, it is being improved. The objective is to have a guided missile that can be fired at a target two or three hundred miles away.

I have listened to much dispute, but the preponderance of opinion is that we do not require, in the present state of the world's fleets, a very much larger submarine force. What we do need—and badly—is increased anti-submarine weapons.

Russia is a huge land mass and practically self-sufficient. We can not go at them on the seas; but their submarine fleet can come after us. We might find a way to bombard their coastal cities from submarines, but that is not yet possible. What we must have are naval means to destroy their submarine fleet as efficiently and as rapidly as possible in time of war. That must be done.

Trade Act To Test GOP

By Walter Lippmann

THE next few weeks will bring a concrete and most significant test of the condition of the Republican party. Will the men who are manifestly the most popular with the mass of the Republican voters—Stassen, Dewey and Vandenberg—be upheld or repudiated in the field of foreign policy by the Republican organization in Congress?

The test will come before June 12 on the question of extending the reciprocal trade agreements act which expires on that day.

LIPPMANN

Since it was first passed in 1934, the act has four times come before Congress for renewal—in 1937, 1940, 1943 and 1945. On all the occasions it could fairly be said that, though there were many Republicans who supported it, it was a measure of the Democratic party, based on its traditional views in favor of moderate tariffs, and therefore one which the Republican party, long committed to high protection, could reasonably oppose.

This is no longer the case. The Republican party can no longer oppose the extension of this act without repudiating its own solemn and precise commitments, now the law of the land and an integral and essential part of the nation's foreign policy.

The Economic Co-operation Act was passed by the senate on March 13. The vote was 69 to 17. It was passed by the house on March 31. The vote was 329 to 74.

This law says (Section 115) (B) (3) that the participating countries are required to conclude agreements with the United States providing among other things for cooperation "to reduce barriers to trade among themselves and with other countries."

If the Reciprocal Trade Agreements Act is not renewed or is nullified by destructive amendment, this country will not be able to negotiate and conclude the agreements which the law of the Economic Co-operation Act requires.

The law itself will have been nullified by the Congress which passed it. The great policy on which is staked so much of our hope of security and peace will have been repudiated. What Congress did with its right hand, it will have undone with its left.

The damage will be irreparable. For by an act of this congress, made after full deliberation, the good faith and honor of the nation are now fully and wholly engaged in carrying out the letter and the spirit of the European Recovery Program.

How To Explain?

How could a default, a nullification, a repudiation be explained? How could the moral credit of the government in its dealings with foreign powers be restored? On what ground should we then stand in opposing those who, having made solemn international commitments, resort to devious ways of evading, avoiding, and subverting them?

It must not be supposed it cannot be presumed, that the Republicans in the House who are involved in this matter are conspiring to subvert the foreign policy of the United States. Almost certainly they have not yet understood what they are doing.

They have not yet heard from the national leaders of their party, from the men among whom, if they expect to win the election, they will select their candidates. These men are bound to speak to them promptly and unequivocally, and to make them realize that they are no longer dealing with the traditional domestic issue of high and low tariffs but with a crucial element of a policy in which the vital interests of the nation—its peace and its security—are directly involved.

No Hardship

The opponents of an extension of the act are, of course, entitled to make their case. But if they make their case in the open, we shall see that they are trying to protect themselves against imaginary injuries.

The chief producing interests behind the opposition in congress are not now suffering from unemployment, or from severe competition in the domestic market, or from cut-throat prices, nor are they doing unprofitable business.

Quite the contrary. A compilation made by the National City Bank of New York of the net income of the leading corporations in the industries supposed to be affected adversely shows that never have they been so prosperous.

The 44 leading companies making chemical products earned over 17 per cent on their net worth last year, after charging off depreciation, interest, taxes and other charges and reserves. For 45 cotton goods companies the return was 36 per cent, for nine woolen goods companies it was 21 per cent, for shoes and other leather products it was 21 per cent; for glass products over 17 per cent.

These industries cannot argue that they are being hurt. All they can say is that they are afraid that they might be hurt some time in the future. That is not a sufficient reason for wrecking the foreign policy of the United States.

He's Campaigning On A High Plane

A Florida candidate is stumping the state in a helicopter.

His opponent will doubtless be saying that the need is for men with their feet on the ground.

Still, it's not only the air-borne politician whose visibility is frequently limited.

Campaigning from a helicopter is much more practical than from a balloon. Then, everyone says: "Here's that old windbag."

This way, the aerial politician can swoop down on the elusive voter in his native habitat, make the customary promises, and then soar away before he is queried on controversial issues.

In fact, in really benighted areas, he can even claim what he has only been able to imply heretofore, namely that he is Heaven's answer to the voters' prayer.

Look Out for Hangfires

Government Will Render War Relics Harmless.

THE government is trying to get people to use their brains to keep from blowing them out.

Meaning: If you have a war trophy or souvenir—gun, shell, bullet, bomb, grenade, mine—be sure it's unloaded.

You can have it checked for free.

Many people, including children, have been killed in this country since the war by trophies thought to be harmless. For example:

Boys blown to bits by a bazooka shell; children killed with "unloaded" pistols; children mangled by hand grenades.

This country is loaded with trophies brought back from overseas by servicemen. They're in all kinds of places: A pistol or cartridge in a dresser drawer; a machine-gun in a closet; a shell on a mantelpiece; a mine or bomb in the cellar.

Here's the story: The government has a nationwide campaign for a check on war trophies. It's run by the alcohol tax unit of the Treasury Department. That unit has an office in every state. The army, navy, peace officers and civilians all over the country are helping out. Every county has a four-man war trophy committee plugging to get people to have their war souvenirs checked.

Suppose you have a trophy and wonder whether it's loaded. How can you find out? This way:

Write the Commissioner of Internal Revenue, Washington, D. C. Or call the office of the alcohol unit in your state.

Or notify the nearest policeman, police station or sheriff.

What happens then? Your trophy will be picked up and taken to the nearest army or navy station which has firearms experts.

If they can do so without destroying the trophy, they'll unload it—make it harmless—and it will be returned to you, free of charge.

Don't take a chance even with trophies from World War I or the Civil War. Shells used in both wars still are blowing up.

You may wonder why the alcohol tax unit has been chosen to run this campaign. There's a story behind that.

Gangsters were able to buy, on the black market, American-made machine-guns and sawed-off shotguns in the late 1920's and early 1930's.

The weapons might have passed through a dozen hands—with all identifying marks filed off—before a gangster bought them. So they were hard to trace. To block this, Congress in 1934 passed a law which said:

These weapons, but only these, had to be registered with the alcohol tax unit: Machine-guns; shotguns or rifles with barrels less than 18 inches long; any firearm, except a pistol or revolver, which could be concealed on the person; a muffler or silencer for any firearm.

Anyone who had such a weapon and didn't register it was subject to a fine of $2,000 and five years in jail. And every time such a weapon was transferred from one person to another a $200 tax had to be paid.

This put crimp in the traffic of such American-made weapons. But plenty of foreign-made weapons of that kind have been brought into this country by servicemen.

Just remember: If you have such a weapon, that law of 1934 still stands. You must register it with the alcohol tax unit. If you don't, and the weapon is found in your possession, you're liable to the fine and jail term.

The government is worried that a lot of foreign-made machine guns and sawed-off shotguns will get into the hands of gangsters. If they're not registered, they'll be hard to trace when used in a crime.

The alcohol tax unit was picked for the job of registering such weapons because it has investigators in every state to see that the federal tax on alcohol is paid.

Rafael Torres for President!

THE other day Rafael Torres, a ship's cook tried to board a big city bus. Just as he had a foot on the step the driver slammed the door in his face. The ship's cook ran alongside for a block, with the driver disdainfully ignoring him. Then he jumped into a taxi, pursued the bus to the first stop, climbed in and pulled a knife on the operator. This department is against violence and excessive top-blowing. But its heart goes out to Mr. Torres.

PHILLIPS

When the gent chased the bus and took matters into his own hands ye ed could exclaim, "There, but for the grace of God, go I."

If there is anything that makes us see red, boil over and go berserk it is the slamming of a bus door in our face, especially when it is done with the split-second timing of so many bus drivers who seem to take a special delight in the practice. There are times when they have to close the door but need they do it with that "less than the dust beneath my chariot wheels" manner?

* * *

It is this column's belief that nothing in Europe or Asia produces as many warlike emotions as bus-door slamming. The instinct to murder is aroused by it at a billion corners in America every minute of the day and night. The turbulence and unhappiness in many a home is directly due to it. If innumerable wives only knew it, they could trace to a slammed bus door their husband's irascibility. Observe on the city streets the thousands of men and women who go about wild-eyed and muttering to themselves. What's the matter? Slammed the bus doors!

* * *

Elmer Twitchell is among those saluting Rafael Torres. "He did merely what I have wanted to do a million times," declared Elmer. "I think he showed restraint in pulling a knife. It has always been my desire to overtake one of these drivers with a sawed off shotgun!"

* * *

"I realize," said Elmer, "that the lot of a bus driver is not a happy one. He has so many things to do that he can be forgiven a little impatience. Admittedly he can't wait all day, for passengers to get on, but too many of 'em slam the doors with unmistakable pleasure and contempt. They need to realize that they are catering to human beings not horse flies, Jap beetles or Black Widow spiders."

* * *

Elmer cut his talk short to rush for a bus. The next time we saw him he was in a fever, yelling for a taxi and crying "Who's got an atom bomb?" It seems this bus driver went right by without even opening the door! We expect more violence.

Cotton Corners

By TRUMAN TWILL

DEAR NEPHEW: I've been up late a couple of nights doing some hit-and-miss reading in high-spot accounts of history. I was hunting for quick proof that the world was never better than it is right now. So many people have been telling me it was never worse that I knew they had to be wrong.

Their trouble is that they have the same delusion as complaining women who always think they're sicker than anybody else because they don't know how sick other people can get. Old Doc Sanders used to tell me how he handled these cases when he thought he could get away with it. He'd take the complainers to the county hospital and show them some folks who were really sick—said it used to make most of the complainers ashamed of themselves and they'd snap out of it.

It looks to me as if the difference between the way things are now and the way they used to be is that everybody who reads or listens these days carries the world's troubles on his shoulders, while in the old days ignorance was bliss. What they didn't know didn't hurt them. They left the heavy worrying to kings, dictators and so on, who followed the rule of treating the people rough and telling 'em nothing.

The only way the poor suckers at the bottom of the heap ever learned what was going on was when they had to take the consequences of boneheaded moves that landed them in wars, mistakes they had to pay for with their lives and property, maybe a revolution or a famine. When such things happened ignorance wasn't bliss any more.

What's being tested these days is people's ability to face the facts of life without cracking up and whimpering to some dictator, "Here, bud, you take charge of everything from now on and keep us plain folks in the dark because we're afraid to take another look."

In this country we're still demanding the right to know what time it is and we still get sore when we learn (too late to do anything about it) that someone sneaked over a secret deal affecting all of us without telling the people about it. We don't think ignorance is bliss. We're afraid of ignorance. But at the same time we're showing signs of going to pieces under the impact of trouble and whimpering, "O. K., boss, you know best. We're all mixed up and don't know what to do. It's too tough for us. Things were never this bad before."

Bosh. Things never were better. But too many people don't know how bad things used to be. It looks to me as if a lot of us needed to get a better grip on the fundamental principle of popular government, which is that an informed population is smarter than anybody, especially the chesty boys who think they are smarter than the people. I'll give you the good old days and take the better new days. Give my regards to the family. I must listen now to the news report to see what has busted loose while I was writing this letter.

We, Too, Conduct!

There's many a parallel between the virtuosity of the musician who conducts a famous symphony orchestra and the more modern progressive members of our profession.

The conductor must blend into one perfect, harmonious whole the efforts of a hundred or more musicians. He must have a vast amount of training, a definite aptitude for his work, the ability to command respect and confidence, a reputation for good taste and professional integrity, and—so very important!—he must have at his command expert personnel, and the finest of equipment.

That these things are likewise true of the funeral director is obvious, and the reputation of the Schaffner-Denzer Company demonstrates clearly that we have the ability, the personnel, the equipment, and the facilities, to create a memory picture of unblemished loveliness.

BOMB KILLS BROTHER OF INTENDED VICTIM

By The Associated Press

WOLVERHAMPTON, ENGLAND, May 3—A parcel bomb addressed to Capt. Roy Farran, acquitted of killing a Jewish boy in Palestine, exploded today, killing his brother, Rex Farran, 26.

The bomb, enclosed in a copy of Shakespeare's plays, was delivered at the Farran home this morning.

Young Farran was alone in the house. The explosion shattered windows.

Police said the parcel was mailed in England. The inside of the book had been cut away to make room for the bomb.

The Jewish youth, Alexander Rubowitz, 18, disappeared last May 6. The Stern gang, Jewish underground organization in Palestine, claimed him as a member. The military court which acquitted Roy Farran ruled that Rubowitz had not been proved dead. He was abducted while posting signs for the Jewish underground. The prosecution based its case largely on a light gray hat which it said was found nearby and bore the name Farran.

In February King George VI decorated Farran for valor in the French and Italian campaigns.

3 Political Shows In U.S. This Week

By The United Press

WASHINGTON, May 3—Three states put on this week's big political shows starring Sen. Robert A. Taft, Harold E. Stassen and President Truman.

Sen. Taft and Mr. Stassen are opposed in Ohio's Republican presidential preference primary. In Alabama's Democratic primary Mr. Truman seems to be opposed by just about everybody taking part. In Florida's Democratic primary Mr. Truman has a lot of opposition but not quite so much as in Alabama. The three primaries take place tomorrow.

For Alabama's 26 seats in the Democratic national convention there are 84 candidates. Of these, 28 have stated publicly they will bolt the convention if the candidate and platform are not satisfactory; 35 have said they would not walk out of the convention and 21 are uncommitted. Twenty-four candidates for the convention have announced they favored nomination of Gen. Dwight D. Eisenhower for president.

Contest In Alabama

Alabama also will choose tomorrow the 11 persons who will cast the state's votes in the electoral college. Nine of the candidates for elector have announced for Gov. Eisenhower. All candidates for delegate to the convention or for elector are against Mr. Truman. A dispatch from Birmingham states that the contest in Alabama has been to determine "who is against him the mostest."

Florida looks a little better for Mr. Truman because none of the candidates for elector has pledged to withheld his vote from the President.

Ohio's primary is the year's hottest. Mr. Stassen bucked the unwritten rules when he invaded the home state of favorite son candidate Taft.

BUCYRUS DRIVER FINED

He was arrested Wednesday by the patrol on highway 23.

By The Associated Press

HYDE PARK, N. Y., May 3—A restaurant chain has signed a tentative contract for a large plot of the estate of the late President Franklin D. Roosevelt.

Nearly 400 acres went on sale yesterday for development for residential or business purposes.

AKRON MAN JUMPS IN PATH OF TRAIN

Erie Diesel Picked in Apparent Suicide Effort.

Allen Hands, 38, of Akron, is still alive today after an unsuccessful attempt at apparent suicide early yesterday morning when he calmly laid down across the tracks in front of an Erie freight train of which a Marion man was engineer. The incident happened in Akron.

W. C. Tucker of 515 North Prospect street, engineer of the diesel locomotive, said he was eastbound, running about 25 miles per hour on a slow order when he saw Hands walking on a sidetrack toward the train. When the train was almost on him Hands stepped between the rails into the path of the oncoming train and laid down across both. Mr. Tucker applied his brakes but said he knew the effort was futile as Hands had waited until he was sure the train could not stop before laying down on the tracks.

Bringing his train to a stop, Mr. Tucker jumped from the cab of the locomotive and ran back along the tracks beside his train. He found Hands under the sixth car back from the four-unit locomotive.

Mr. Tucker called to Hands, found he was still alive and ran to summon police.

Akron city traffic police arrived on the scene with an ambulance in short order and removed hands to Peoples hospital in Akron. After filing necessary police reports Tucker took his train on to Kent where his run ends. Train crewmen reported rumors abroad in Kent that Hands was despondent over heavy betting losses on the Kentucky derby.

The low cowcatcher of the diesel locomotive is believed to have foiled Hands suicide attempt by its low clearance over the rails, catching Hands and spinning his body out from between the rails and along the right of way where he fell against the side of the locomotive as it passed, his legs falling over the rails. Trainmen believed that had Hands jumped in front of a fast steam locomotive he would certainly have been killed.

A report received today from Summit County Sheriff Robert Smith in Akron said Hands still was alive at 11 a. m. with his condition regarded as critical. Sheriff Smith reported Hands may suffer the possible amputation of both legs and that he has a bad laceration of the head. Akron police set the time of the accident at 2:40 a. m. Sunday and the location as 100 yards west of where Manchester Road crosses the Erie tracks in Akron.

NAMED CANAL CHIEF. According to a Washington announcement, President Truman has nominated Brig. Gen. Francis K. Newcomer (above) to be Governor of the Panama Canal Zone. Newcomer, now Engineer of Maintenance, will succeed Brig. Gen. J. C. Mehaffey.

The floods were reported under control at 2 a. m., although the break in the 48-inch main had not been located.

FINED ON LIQUOR CHARGE

Clyde Richard Warner, 43, of 711 Hoyle street was arrested by city police at 5:54 p. m. Sunday and charged with the illegal sale of intoxicating liquor on Sunday. He posted a $200 bond for his appearance in court this morning where he entered a plea of guilty and was fined $100 and costs by Judge Hazen.

DONATE FURNITURE FOR FIRE VICTIMS

More Still Needed; One Recovering from Burns.

Hospital attendants this morning reported the condition of Miss Dorothy Reichert, 37 of North State street, as "fairly good."

Miss Reichert is undergoing treatment at City hospital for first and second degree burns of the hands and face suffered in the fire which last Friday destroyed the humble home occupied by her and her sister on North State street just north of the city limits.

Additional donations of furniture and services have been received by Police Chief Marks and Fire Chief Sifritt but so far only $5 in cash contributions has been received.

"We need about $100 in cash donations to buy lumber to house these unfortunate women," said Chief Sifritt, "but if we could get enough lumber donated together with roofing paper and nails we could do without the money."

It is the aim of the assistant chiefs to secure lumber or lumber donations if possible to erect a dwelling for the Reichert sisters. When the lumber has been secured an appeal to local building craftsmen will be issued to secure services for construction of the one-room dwelling.

Both Chief Marks and Chief Sifritt expressed their appreciation of the offer of a local trucker to haul all furniture and building materials donated as his contribution to the aid program. Both Chiefs stressed the urgency of the need and the deserving character of the sisters for which the donations are asked.

Roving Reports

By Hal Boyle

DEADWOOD, S. D.

DAY after day grim tragedy stalks in this crossroads of the old West and many a man falls, bullet-riddled in his own gore.

The thud of gold pokes has given way to the rustle of $5 bills. The bad man has replaced the stagecoach. The soft scraping of "the dyuce" is heard only behind locked doors, and so is the clicking roulette ball.

The brick high school outshadows the biggest wooden saloon. The night is lit by the neon sign instead of the flaming six-gun, and the thundering hoofs of the outlaw's fleeing pony echo only in the pulp magazines. You get a ticket now for parking in the wrong place.

Hal Boyle

The grandsons of the posse that chased the bad men out of town hold conclave on how to welcome the good tourist.

Yesterree, pooner, old Deadwood, capital of that vanished frontier where "the coward never started and the weak died on the way," has gone respectable. "Wild Bill" Hickok and "Calamity Jane," asleep in their hill cemetery, wouldn't know the town they helped make famous—or infamous.

Its present attack of civic virtue—gambling was banned two years ago—is deplored by some of Deadwood's citizenry. They'd like to keep it the wide open town it was for 70 years, a place where the miner, the stockman and the stranger could risk their stomachs at the bar and their pocketbooks at the blackjack table.

BUT NOT 78-YEAR-OLD D. M. McGahey, curator of the Adams Memorial hall, a museum of Deadwood's crowded past. He feels that Deadwood's flamboyant characters—Hickok "Deadwood Dick," and "Calamity Jane," Army scout and lady tosspot—have had entirely too much attention.

He calls them "the long hairs" and grudgingly keeps a case of their relics in the museum only out of deference to public interest. In the case is "the dead man's hand"—ace and eight of spades, ace and eight of clubs and queen of hearts — held by "Wild Bill" when the frontiersman, a man with 36 notches on his guns, was ventilated through the back by Jack McCall in the No. 10 saloon.

"Wild Bill Hickok was never anything but a gambler here," grumbled McGahey. "As for Calamity Jane, the best you can say for her is that she never did anyone any harm except herself."

HE DISDAINED even to mention "Poker Alice," famous "slim-let-eyed, cigar-smoking female card sharp. And as for 'Deadwood Dick,' the man who foiled the stagecoach robbers in a thousand western pulp tales, listen here—

"Deadwood Dick—or at least one of the four men who called themselves that—was the dumbest fool that ever came over the pike," snorted McGahey. "He didn't know which end of a gun to hold away from him when he pulled the trigger.

"What did these long-hair celebrities ever do for the country? People should pay more honor to the real pioneers who built up the West. Men like W. E. Adams, who came here in 1877, with a team of mules and a load of hardware and went into business."

Adams, who died in 1934, left $100,000 to establish the museum.

BUT WILD BILL and Calamity Jane, whatever their morals when alive, still draw hundreds of thousands of visitors here. The gunman and the amorous lady are buried in adjoining graves—which is closer than Hickok cared to be to her during his lifetime.

"Some people try to make out that those two long-hairs were in love," grumbled McGahey, "but Wild Bill couldn't see her."

Wild Bill finally lost his head to a souvenir hunter. It was stolen at night from the red sandstone statue over his grave.

In Plain Words

By James Marlow

WASHINGTON

THIS brings you up to date if you're puzzled over what's cooking up in congress over the armed forces.

There are three main points.

1. Making the air force bigger.
2. Drafting men for military service.
3. Compelling youths to take military training.

James Marlow

Republicans!!

It is your privilege—also your duty—to vote in the primary election tomorrow.

Marion F. Hindel,
Republican Chairman.—Ac

(A group can be any number of planes, depending on size. A group of bombers has fewer planes than a group of fighters.)

Secretary of Defense Forrestal wants to hold congress to building only 55 groups. But congress has talked 70 groups as the figure to vote on.

Secretary for Air Symington is right along the line we need 70 groups though he says he does not disagree with Forrestal. It looks like congress will approve 70 groups.

Now take the draft.

Congress is thinking of drafting men 19 through 25. So far it's only thinking. There's no draft law yet although the idea was President Truman asked for such a law to build up the armed forces.

CONGRESS' TWO ARMED services committees—one in the house, one in the senate—are working on separate draft bills.

When they've finished, they'll send their bills up to the full house and senate for a vote.

There may be a lot of wrangling over the bills and they may be changed before house and senate are through with them.

Now take universal military training—

Months ago the house armed services committee favored a bill for universal military training (UMT).

That bill is all ready for a house vote. But it's been held up in the rules committee. If the full house ever acts, it may change the bill.

AT ANY RATE, that is what the UMT bill would do as it now stands:

Compel young men 18 to 20 to take a year's military training in camp or on ship.

(They could not be part of the regular army and could not be sent overseas except by special act of congress.)

After their six months' training they could do this:

1. Take an additional [illegible] of training.
2. Join a reserve unit and get their military training.
3. Go back to civilian life but for five or four years continue to take part-time training.

You'd be able to see what a draft Like the National Guard.

THE SENATE BILL—[illegible] Lyons plan, although it's not [illegible]

No one can predict right now what congress finally will do about UMT or the draft. Congress is split wide open in its thinking on UMT.

"Oh, yes." I gasped in relief, and then the Kennedy door opened, and I knew that Charlie Kent was delivering the message I had given him.

The closing door evidently spelled action to Joe.

"Shall I turn the car around now?" he asked.

"Okay, Madge?" Dicky whispered. I nodded assent, and he answered Joe's question.

"Yes, please," he said, "but when you have it headed toward the road, turn off the ignition. Charlie Kent will bring the florist back with him for an interview with Mrs. Graham. Before he gets into the car, I want all you men to pile out. She won't keep you long, and I'll be with you."

I made a gesture of dissent which I knew Joe did not see. But his own protest was quick.

"I'm sure you wouldn't do that, Mr. Graham."

"Why not?" Dicky asked quickly.

"Because," Joe answered, and his tone subtly intimated that Dicky should have known the answer himself. "The Chief [illegible] never wants no woman left alone in the armored car. You never know in what direction trouble's going to start up. That's not saying I expect anything this trip. It's been a Sunday school excursion so far, but you never know."

"Thank you, Joe," Dicky said, and there was sincerity in his voice. "I should have thought of that myself. I am grateful indeed to you for reminding me. I shall stay right here inside on guard."

"That will be better," Joe said in matter-of-fact tones, and I turned my hand under my nuisance, and gave it an ecstatic grateful squeeze.

"I ought to be shot," Dicky murmured prison-fashion. "But I [illegible]

Pitchers Find Out Ralph Kiner, Johnny Mize, Ted Williams Still Pack Old Wallop

All Three of Last Year's Slugging Leaders Club Homers To Win Tilts

By The Associated Press

This may be a new baseball season, but major league pitchers are finding out much to their sorrow, that Ralph Kiner, Johnny Mize and Ted Williams still pack that old home run wallop.

Each of the three home run kings of 1947 crashed four-baggers yesterday to lead their respective teams to important victories.

Kiner, whose 51 homers tied Mize for the National league championship, cracked two to pace the surprising Pirates to a 6-4 win over the Cincinnati Reds in Pittsburgh. Both were hit off lanky Ewell Blackwell, the second coming with two men on base. They were his second and third of the season.

The victory was Pittsburgh's eighth against four defeats and enabled the pace-setting Pirates to retain their half-game lead over the New York Giants in the National league.

Mize slammed a home run with one mate aboard to break a 1-1 tie to inaugurate a four-run sixth inning as the Giants went on to defeat the Boston Braves, 5-1, in New York.

3rd Homer of Year

It was the slugging first baseman's third home run of the year.

Williams was the whole works in the 7-1 Red Sox triumph over the New York Yankees in Boston. Thumpin' Ted, who paced the American league with 32 home runs last year, tripled in the first inning off righthander Karl Drews to drive in two runs. He banged his fourth home run of the season in the eighth off lefthander Joe Page with two mates aboard for a day's total of five runs batted in. Ted now leads the American league with 14 RBI's.

The rebounding Detroit Tigers handed the Indians their second straight defeat before 57,450 fans in Cleveland, 4-2. Previously the Tribesmen had won their first six games.

The Philadelphia Athletics vaulted into second place by whipping the Washington Senators for the third straight time in the capital city, 4-3. It was the Senators' fifth consecutive defeat.

Pitches 4-Hit Shutout

Lefty Ken Heintzelman pitched a four-hit shutout for Philadelphia in the National league to give the Phillies a split in their double header with brooklyn. The Phils won the afterpiece 2-0 after the Brooks had pasted four pitchers for 13 hits and a 9-6 win in the first game.

Ed (Duke) Snider, rookie outfielder, led the Dodgers' first game attack with two home runs, a triple and a single in five times at bat. He drove in four runs.

Curt Simmons, Philadelphia's $60,000 bonus beauty, collected his third win of the season.

Arresting 10 hits off five pitchers, the Chicago Cubs ruined the Cardinals' under a 13-4 score in St. Louis. A seven-run Cub eighth inning ended all hopes for the Redbirds.

Springfield won this year's Mansfield and Ohio Wesleyan relays.

Reds Bow To Pirates, 6-4

By The Associated Press

CINCINNATI, May 3 — Cincinnati baseball fans are beginning to wonder whether the Redleg whip, Ewell Blackwell, is losing his stuff or just getting a slow start on another brilliant season.

Blackie lasted only five innings yesterday as the Reds bowed to the Pittsburgh Pirates, 6-4. The tall, right-hander was charged with the loss and the defeat left Blackwell with an unimpressive 2-2 record, but the books show that he started the same way last year. He won two, lost two and then went on to a sparkling 22-8 season, including 16 straight wins.

The Reds outhit Pittsburgh 11-10 but couldn't connect when the chips were down.

With one out in the seventh inning and the Reds trailing 5-4, center fielder Johnny Wyrostek connected for a triple but he became one of the outs in a fast double play. He dashed for the plate on Grady Hatton's grounder only to be nipped and then Hatton, who had made the turn at first, was caught between first and second.

In the final frame, with the score 6-4 in the Pirates favor, the Rhinelanders put two men on base but Pittsburgh's fourth twin killing of the day ended the contest.

Ralph Kiner, Pittsburgh's heavy hitting left fielder, banged out two homers, accounting for four of the Pirates' runs.

Wyrostek had a double and a single, in addition to his triple, for a perfect day at the plate, and second sacker Bobby Adams also hit safely on four official trips, getting three singles and a double.

Dodgers Ask Waivers On Cookie Lavagetto

By The United Press

NEW YORK, May 3—Anybody want to buy a World Series hero?

The Brooklyn Dodgers were asking waivers today on Harry (Cookie) Lavagetto, whose pinch-hit double with two out in the ninth inning gave the Dodgers victory in the fourth game of the last World Series and robbed the Yanks' Bill Bevens of a no-hit game.

Unless some National league team refuses to waive by tomorrow, the 34-year-old infielder will be free to make a deal for himself. He has been with the Dodgers since 1937, except for service in the Navy, and was the regular third baseman on the Dodgers' 1941 league champions.

W AND W TO PRACTICE

The W and W Production softball team will hold a practice session tomorrow night at 6:15 p. m. on the Harding baseball field.

Harding To Meet Mansfield At Lincoln Park Tonight

The Harding Prexies will play their first night baseball game tonight when they meet the Mansfield Tygers at Lincoln park at 8 o'clock in a return engagement of a two-game series.

The Jimmy Lymper-coached Tygers won the first game by a score of 2-1 on two unearned runs after being held hitless by Don (No Hit) Johnson a week ago.

Pete Howison has his squad pretty well tuned-up for this one and will start Johnson on the mound and Setter behind the plate. The remainder of the lineup will probably be rightfielder, Dick Thomas; shortstop, Dick Roseberry; first baseman, Bob Ralston; centerfielder, George Stoffer; second baseman, Jimmy Rea; leftfielder, Bill Mathias, and third baseman, Jim Hill. Catcher Setter will bat in seventh position following Rea, making the batting order read as listed.

Jim Hill, spiked last week in the Mansfield game, is expected to be ready for this one after a week of rest. He is expected to take over his regular duties on the third base sack, although "Kid" Wolfe has been handling the job without fault. Rea, second baseman who was unable to play in the Ashland game due to his part in the senior play, is also available for this one.

Jimmy Lymper, who helped run Chicago Cub Scout Tony Lucadello's Mansfield baseball school last summer, will bring a tough diamond aggregation here. In addition to dropping the Prexies, they have licked the Ashland A's who in turn downed the locals, 8 to 0. Howison's boys will be seeking their third win, having defeated Waldo and Caledonia while going down to the Tygers and A's.

Tonight's game will mark the Prexies' first appearance under the beams in school history and will be the first time that admission has been charged for such an affair.

The game is scheduled for 8 o'clock and ducats will go for 35 cents to adults and 25 cents to students.

Bengals Beat Indians, 4-2

By The Associated Press

CLEVELAND, May 3 — The No. 1 and No. 2 pitchers of the Cleveland Indians' mound staff—Bob Feller and Bob Lemon—today were tagged with the Tribe's No. 1 and No. 2 losses of the young American league season.

Manager Lou Boudreau led with his aces over the week-end but both were trumped by the Detroit Tigers, with Lemon the latest casualty in a 4-2 setback by the roused Bengals before 57,450 stadium fans yesterday.

Freddie Hutchinson, who copped 18 victories to lead the Detroit mound staff last year, regained his form with a masterful three-hitter for his first 1948 triumph. Hutchinson walked none, struck out four and faced only 30 Tribe hitters in his win over the league leaders.

Boudreau continued his hitting spree with a homer in the first inning, while Lemon rapped his second circuit clout of the season in the third and singled in the sixth to complete the Indians' offense.

It was the Tribe's second straight setback after a surge into first place of six consecutive starting victories.

Two errors figured prominently in the Detroit scoring. The first bobble was committed by Larry Doby in the opening frame when the Tigers tallied twice.

The Tribe's pair of homers tied the score, 2-2 but Hoot Evers put Detroit in front to stay with a round tripper in the fourth.

CUBS RAINED OUT AT PORTSMOUTH

Barring Further Rain, Pavkov Will Be Up Today.

A heavy downpour Sunday morning forced postponement of the Marion Cub's game at Portsmouth yesterday and the contest was re-scheduled as the first part of a double header at the Ohio river city June 3.

Barring further rain today, St. Pavkov, who blanked the Muncie Reds in pitching a three hitter in the Ohio-Indiana league opener here last Tuesday, will be on the mound today against the youngest member of the class D circuit in quest of his second Cub victory.

All the other league games scheduled yesterday were postponed because of rain or wet grounds, leaving the Cubs and the Muncie Reds in a tie for the loop's first place.

At the end of the first week of play, pitcher Ramon Peet heads the list of Cub batters, his three for four against the Richmond Roses last Thursday giving him a .750 batting average.

Left fielder Bill Bolduc leads in extra base hits with a homer and a pair of doubles, and rightfielder Bill Bohlander has batted in the most runs—eight. The only other extra base hits on the books are triples by Manager Zeke Bekeza and third baseman Lou Castrovince.

Columbus Red Birds End Miller's Winning Streak with Double Jolt

By The Associated Press

The season's longest winning and losing streaks in the American Association came to an end in Sunday's round of doubleheaders.

Minneapolis missed a chance to take sole charge of second place by dropping a pair to Columbus. The double jolt finished the Millers eight-game victory span and marked the first time they have been beaten at home this season.

Tommy Glaviano led the Red Birds to 9-3 and 6-5 decisions, the second game going an extra inning. In the opener his home run, double and single accounted for three runs. In the nightcap his single drove in the winning tally in the overtime.

KC Breaks Losing Spell

Kansas City broke a nine-game losing spell by downing Toledo 2-1 after dropping the first game 5-4 in 10 innings. The Hens picked up a run in the seventh of the starter and added three more in the ninth. But the Blues staged a four run uprising for a deadlock. Dick Kokos' pinch single drove in Ellis Clary, who had walked, in the tenth.

Relief pitcher Johnny Mackinson allowed only three hits from the second inning on to guide the Blues to their second game win.

Another long winning string was snapped when the Brewers took a 3-2 opening triumph over Indianapolis. It was the Tribe's first loss in five games. The Indians copped the second 3-2 for their 10th win in 12 starts.

Louisville Wins

Louisville beat St. Paul 5-4 with a three-run rally in the ninth, but St. Paul took the afterpiece 8-0.

Minneapolis and St. Paul are now locked in second place each with 11-7 records.

Following is a list of players, gross result, handicap, and net result:

Class A—Glen Somers, 33-12-71; Jack Weis, 81-10-71; W. W. Thompson, 82-11-71.

Marriages, Divorces In Close April Race

Marriages and divorces in Marion county continued to maintain the close ratio of the past few months during April, according to records of the probate and common pleas courts. Marriage licenses issued exceeded the number of divorces granted during the month by one. The previous month the score was even.

Records in the office of the probate court show 23 marriage licenses were issued in April. Records of Calvin Oborn, common pleas court clerk, show 22 divorces granted.

A total of 27 new divorce actions were filed during the month. Heard in court were 41 cases of which 19 were subsequently dismissed. Of the 22 divorces granted, 19 were to wives and three to husbands. Custody of ten children was given mothers and one child was awarded to the father. Six persons had their former name restored.

Municipal Court Fees For April Distributed

Mrs. Clara Fleck, clerk statistician of municipal court, today reported the distribution of funds collected by the court during the month of April.

A total of $4,039.93 was taken in on all business of the court during the month. Of this total $3,844.70 was from court criminal cases and $195.23 from civil cases.

The entire total collected from civil cases, $195.23, was paid to the city treasurer for the general fund.

The city treasurer was paid a total of $2,734.20 of which $2,506.70 was paid to the general fund, and $177.50, to the city street maintenance and repair fund.

The court collected $269 on cases where arrests were made on a state statute instead of a city ordinance. This amount was paid to County Treasurer Marion E. Hankin.

A total of $177.50, the state's half of highway patrol fines, was paid by the court to the treasurer of state in Columbus and a report of this payment filed with the auditor of state and the superintendent of the highway patrol.

Sheriff LeRoy Retterer received $14 for turnkey fees for the handling of prisoners arrested by city police and turned over to the sheriff to serve their sentences in county jail or await hearings before the grand jury.

One Man's Opinion

By WALTER KIERNAN

It has been ruled by a Missouri court that when a man is at the wheel of his car and his wife is pushing she is the driver . . . That gives her one more driving position.

* * *

Up until now she had to be at the wheel or in the back seat . . . Now she can drive with one shoulder to the rear bumper.

* * *

In fact I've heard one man say that his wife drives best that way.

* * *

But it's carrying gasoline conservation too far when a woman has to get out and push while her husband steers . . . Or he has a well-trained wife.

* * *

Anyway, there is good news from the medical profession that the mint julep is an aid to the heart . . . And that's regardless of what it does to the head.

* * *

The news explains why southern colonels refuse to believe that the surrender was final . . . They just feel so good they can't believe they gave up to a non-julep North.

HAVING FORCED SUPERMAN TO ADOPT THEM BY THREATENING TO REVEAL HIS IDENTITY, THE MATERIALIZED OGIES DO NOT SUSPECT THAT THE MAN OF STEEL'S CONSENT IS PART OF HIS PLAN TO GET RID OF THEM...

TELL ME AGAIN, MR. SMUCO, YOUR IDEA FOR WALLET & BOBBLE.
YOUR FIRM IS WELL KNOWN. THERE ARE LOTS OF FIX-IT SHOPS. ORGANIZE WALLET & BOBBLE ON A NATIONAL SCALE!
YOU WOULD LICENSE THE NAME, FURNISH MEMBER SHOPS WITH KNOW-HOW AND ADVERTISING.
AND WHAT WOULD BE YOUR PART IN IT?
THE STOCK WOULD BE DIVIDED BETWEEN US ON AN EQUITABLE BASIS. I WOULD ROUND UP MEMBERS, COLLECT LICENSE FEES AND OUR PERCENTAGE OF PROFITS.
MAYBE YOU'VE GOT SOMETHING THERE.
